

Mobile and Embedded Interactive Systems (MEIS'08)

Michael Rohs

Deutsche Telekom Laboratories
Technische Universität Berlin
michael.rohs@telekom.de

Paul Holleis

Pervasive Computing
Universität Duisburg-Essen
paul@hcilab.org

Matthias Kranz

Institut für Kommunikation und Navigation
Deutsches Zentrum für Luft- und Raumfahrt
matthias.kranz@dlr.de

Heinrich Hußmann

Lehrstuhl für Medieninformatik
Ludwig-Maximilians-Universität München
heinrich.hußmann@ifi.lmu.de

MEIS'08 is the successor of the MEIS'06 workshop at Informatik 2006. The workshop seeks to bring together researchers and practitioners from academia and industry who are concerned with envisioning, creating and implementing mobile and embedded interactive systems. Interaction with mobile devices and embedded systems has become a part of everyday life. As mobile devices get more complex and embedded systems consist of different components that are networked the creation of usable interactive software poses many new challenges. Issues arise from emerging novel paradigms in user interfaces. In particular tangible interaction, device and interfaces ecologies, and implicit interaction create new requirements for user centered design and system development.

MEIS'08 represents work on the following topics:

- novel tangible user interfaces and interaction metaphors
- new interaction techniques for mobile and embedded interactive systems
- new interface technologies and concepts
- sensing and actuator technologies for mobile and embedded interactive systems
- camera-based mobile interaction techniques
- ad-hoc interaction with embedded systems via handheld devices
- methods, models, and design principles for emerging user interfaces
- prototyping mobile and embedded interactive systems
- experience reports on building, using, and deploying mobile and embedded interactive systems

July 2008

Michael Rohs, Paul Holleis, Matthias Kranz, and Heinrich Hußmann

MEIS'08 Program Committee

Elisabeth André	University of Augsburg
Patrick Baudisch	Microsoft Research, USA
Susanne Boll	University of Oldenburg
Andreas Butz	Ludwig-Maximilians-Universität München
Hans Gellersen	Lancaster University, UK
Tom Gross	Bauhaus-Universität Weimar
Andreas Holzinger	Medical University Graz
Eva Hornecker	The Open University, UK
Christian Kray	Newcastle University, UK
Antonio Krüger	University of Münster
Marc Langheinrich	ETH Zürich, Switzerland
Enrico Rukzio	Lancaster University, UK
Albrecht Schmidt	University of Duisburg-Essen, Germany
