1 Introduction

It is my pleasure to present the papers of the PhD Poster Proceedings of the 6th Conference on Knowledge Management which will take place in Innsbruck, Austria, on February 21, 2011. The WM2011 Poster Session is intended to bring together young academics (PhD students, master students, young research groups) working on foundations, techniques, tools and applications of knowledge management and give them the opportunity to present and discuss their research in a constructive atmosphere.

I would like to thank the highly dedicated supervisors who have carefully reviewed the papers to provide the authors with advice concerning the following questions:

- Is the scope and amount of the planned work appropriate for a PhD thesis?
- Is the research methodology adequate?
- Do you recommend any (further) related work the author should take into consideration?
- How can the paper be improved?

Thanks to the team of supervisors for sharing their experiences in such a fruitful way. Thanks to the PhD students who excellently integrated the feedback. Enjoy reading!

Mirjam Minor, Trier, January 2011
